## Nutriwomen Anti-wrinkle Eye Lift with Eyeliss. Fight against bags under the eyes.

### Function and characteristics:

Eyeliss is a combination of 3 active molecules in solution:

- Hesperidin methyl chalcone: decreases the capillary permeability,
- Dipeptide Valyl-Tryptophane (VW): increases lymphatic circulation,
- Lipopeptide Pal-GQPR: improves firmness and elasticity, decreases inflammatory phenomena.

Eyeliss helps to prevent and fight bags under eyes as well as smoothing the appearance of fine lines by firming and toning the skin.

**Sederma Patents:** FR 2 836 042 - WO 03/068141 - EP 03 708 861.2 - JP 2002.207075

Effect of hesperidin methyl chalcone (HMC) on capillary permeability:

- Decrease of capillaries permeability: 25%

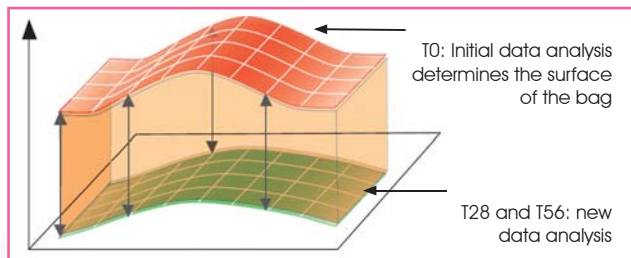

### Clinical Study:

**20 female volunteers, aged between 40 and 60 presenting chronic bags under the eyes / Twice daily application for 56 days of a gel containing 3% Eyeliss.**

### Self-evaluation:

- Eye contour smoothing **62%**
- Reduction of the bags **52%**
- Decongestant effect **52%**

### Principle of a 3D morphometric study

The software measures the distance between the surface of the bag before treatment and the surface of the bag after the treatment.

Before

After

**Anti-wrinkle Eye Lift contains Active ingredient Haloxyl.  
Reduction of dark circle pigmentation and cutaneous reinforcement.**

### Function and Characteristics:

A flavonoid Chrysin: Haloxyl lessens under eye dark circles.

### Cosmetic interest (properties):

Reinforce firmness and tone of the eye area. Chrysin and N-hydroxysuccinimide activate the elimination of blood originated pigments responsible for dark circle colour and local inflammation.

Nutriwomen Anti-Wrinkle Eye Gel contains: 2% Haloxyl.

**Sederma patent:** US 2004/0132667

### Anti-dark circle efficacy:

**22 female volunteers have applied to the contour of one eye a gel containing 2% Haloxyl for 56 days against placebo on the other one. The anti-dark circle effect is assessed by image analysis and measurement of the colour parameters (L,a,b system) by a specific software.**
